

## CosmiKids Child Enrichment Centers

### Keeping the Wonder Alive !

A child's inborn sense of wonder is nurtured and supported by heart-centered, trained instructors who offer them free reign to be who they are in a visually engaging atmosphere that embraces and fuels their creative spirit.

CosmiKids' distinctive environment, caring facilitators and enlightening activities promote a child's discovery of themselves and their precious environment from the inside out.

The kaleidoscope of interactive, and self-reflective experiences at CosmiKids Child Enrichment Centers offers a unique opportunity for children and their caregivers to discover, grow and thrive in a world of pure potential.

An underlying mission of the station experience at CosmiKids is to create an awareness and respect of other cultures, care for the environment and the evolving nature of learning.
